*Improving & Protecting
Water Quality in Iowa*

IOWA STORMWATER EDUCATION

Mission: Provide educational and technical resources to promote positive action on the part of the public to protect water quality.

The Iowa Storm Water Education Program was formed in 2004 to address the educational needs of those impacted by stormwater regulations in Iowa. The program has grown to include:

- Resource Program
- Certification Programs
- Storm Water Training & Workshops
- Contracted Training & Technical Services

Since its inception in 2004 over 6,500 training contacts have been made.

PLEASE JOIN US

If you, your city, organization or business is involved in stormwater management consider joining the Iowa Storm Water Education Program. Membership has expanded to include a Business and Individual level; in addition to our Educator and Professional levels.
